# PREPARE FOR MEGA EARTHQUAKE

On October 28, 2022 at 11:30 am, a large earthquake occurred.

The Earthquake Early Warning was issued. After 10 seconds, a strong ground motion hit around Nagoya city and a seismic intensity of 7 was observed. The shaking continued for about 2 minutes.

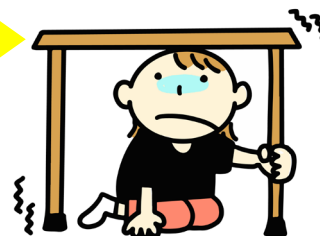

## Can you protect yourselves from large earthquake?

What do you do if an earthquake occurs?

Do you think "I won't get seriously injured"?

You may not be OK.

It is important to think and prepare in advance.

## Oct. 28<sup>th</sup> (FRI), 2022
