

Safety Confirmation in the Event of Disasters

In the event of a large disaster, confirming your safety is of paramount importance. If the safety of the majority of the university community cannot be confirmed, then a return to normal university activities is impossible. **You must respond, even if you are safe.**

Please use one or more of the following methods to receive safety confirmation emails.

1. Install Outlook on your smartphone, etc. and receive a safety confirmation email at your “THERS” email address using 2-step verification.
2. Log in to the ANPIC website with your Nagoya University ID, enter the e-mail addresses registered with your smartphone or provider as your second and third emergency contacts, and receive safety confirmation messages from those e-mail addresses.
3. Install the ANPIC application from Apple Store or Google Play and receive a safety confirmation email from the application (in this case, you can reply via the application).
4. After installing the ANPIC application, receive a safety confirmation message from LINE (you can reply via LINE).

Further Information: Disaster Management Office; Email: [dmo\[at\]seis.nagoya-u.ac.jp](mailto:dmo[at]seis.nagoya-u.ac.jp) (Japanese)

Safety Confirmation System (ANPIC) Initial Setting

Access the initial setting site at <https://anpic-v-nagoya-u.jecc.jp/nagoya-u/regist>

Initial setting site

Enter your Nagoya University ID in the “Login ID” field on the displayed screen and click “次へ”.

Click the URL in the email sent from the “THERS” address

Enter your password on the displayed screen and click “登録”

Click the URL in the email sent from the emergency contact address

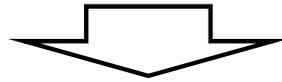

When the registration completion screen is displayed, the initial setting is complete

*Further Information: Disaster Management Office; Email: [dmo\[at\]seis.nagoya-u.ac.jp](mailto:dmo[at]seis.nagoya-u.ac.jp) (Japanese)

Changing your Password/Changing or Adding E-mail Addresses to the Safety Confirmation System (ANPIC)

Log in to the ANPIC site (enter login ID and password)

Display and select the menu using the menu button on the upper left

Change password; add email address

Access the account setting screen from “アカウント設定” in the menu and register or change your details using the “編集する” button for [ログインパスワード] and [メール].

You can add up to two email addresses.
Email address 1 cannot be changed.

After registering your email address(es), check to see if you have received an e-mail that confirms your registration.

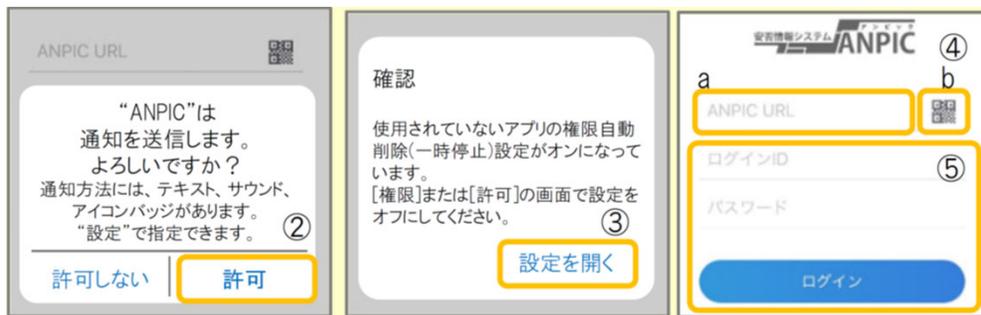

Safety Confirmation System (ANPIC) Application/LINE Setting Method for Smartphones: Step 1

Install the application

Search for “anpic”, “あんぴっく” or “アンピック” on App Store/Play Store/Google Play and install it.

Start the application and log in

- ① Start the application and log in.
- ② Allow the notification displayed on the push notification permission confirmation message.
- ③ When the confirmation screen is displayed, enter the settings on the setting page of your device.
- ④ Directly enter the URL of the ANPIC site **OR** tap the icon and scan the QR code with the camera.
- ⑤ Enter your login ID and password, and log in from the "Login" button.

Set 'application' as notification destination
*See p. 5 for settings via LINE

Access the website and
do a test communication.
(See p. 6)

- ① When the LINE notification setting screen is displayed, tap [設定しない].
- ② When a message about the setting method is displayed, tap [OK].

NB. You cannot receive notifications on LINE if you set the 'application' as the notification destination.

Safety Confirmation System (ANPIC)

Application/LINE Setting Method for Smartphones: Step 2

Set LINE as Notification Destination

- ① When the LINE notification setting screen is displayed, tap [設定する].
- ② When the confirmation message is displayed, tap [OK].
- ③ When the authentication screen is displayed, tap [同意する] or [許可する].

[For iOS devices]

- ④ Tap [確認] when “このアプリを開きますか?” is displayed.
- ⑤ Tap [開く] when “ANPIC で開きますか?” is displayed.

- ⑥ When the friend addition screen is displayed, tap [追加].
- ⑦ Check the LINE talk screen and confirm that the above notification has been received.
- ⑧ Be sure to open the ANPIC application, go to [設定]-[通知画面], and confirm that [LINE] is checked.

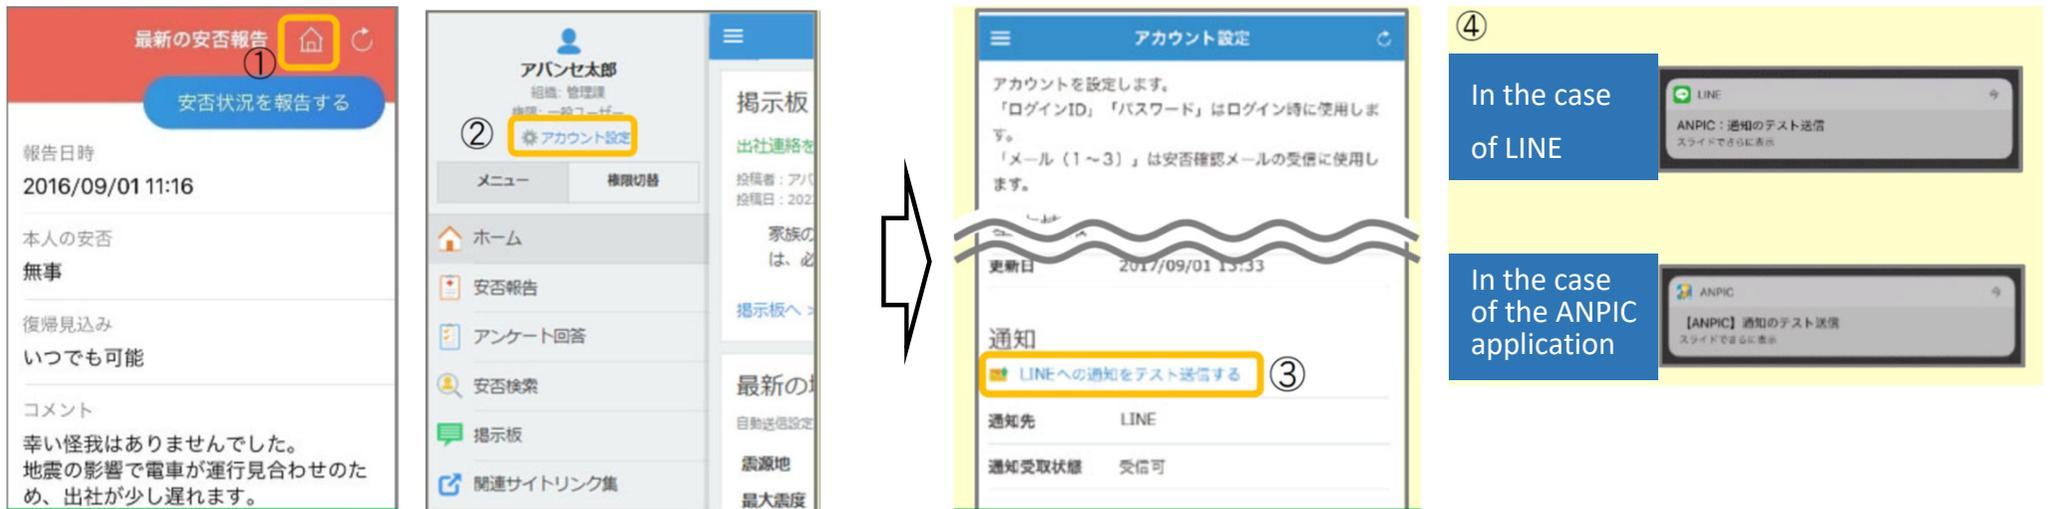

Access the website and
do a test communication.
(See p. 6)

Safety Confirmation System (ANPIC)

Application/LINE Setting Method for Smartphones: Step 3

Access the website and do a test communication.

① Open the safety report screen, tap the icon, and move to the website.

② Tap "アカウント設定" from the menu to display the "アカウント設定" screen.

③ Tap "LINE通知をテスト送信する" OR "プッシュ通知をテスト送信する" under [通知].

④ When you receive a notification on LINE or the ANPIC application, the settings are complete.

END
